

FIGURE 1 - Using a dibble (planting bar) to plant

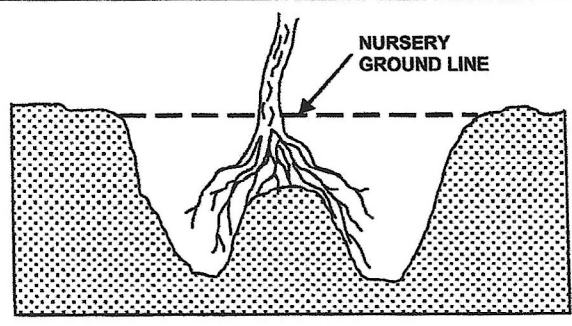

FIGURE 2 - An example of a hole and shovel method of planting seedlings.

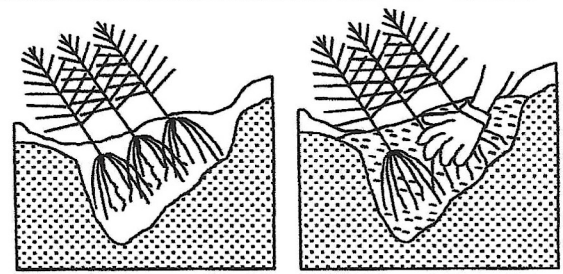

FIGURE 3 - One method of long term tree storage is the "heeling-in" technique. Roots must be packed tightly in soil and kept moist. The heel-in trench must be shaded and protected from wind.

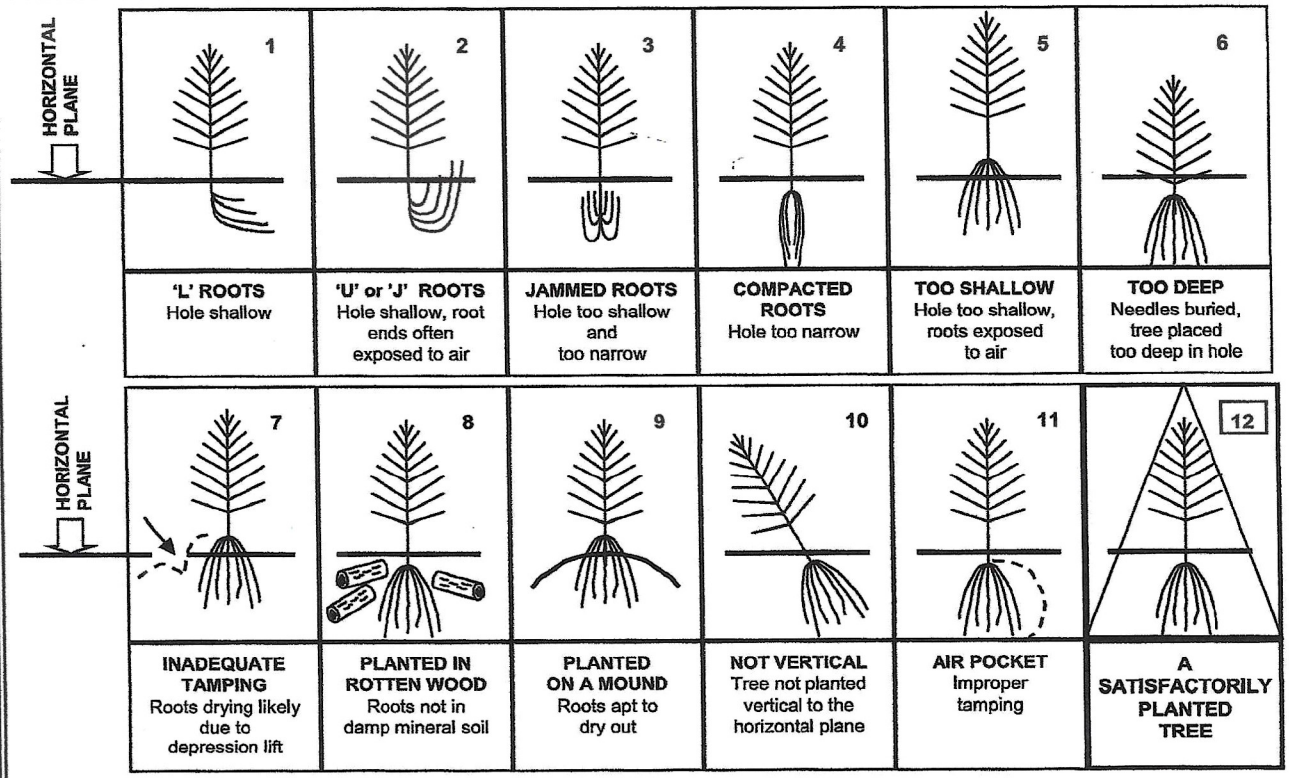

FIGURE 4 - Drawings 1 through 11 illustrate various ways trees should not be planted. The ideal planting is shown in drawing 12.
